Profile

Bachelor of Informatics Engineering with an interest in Linux systems, SQL, and web-based system management. Experienced in developing web applications, managing MySQL databases, and using Linux environments. Familiar with IoT-based systems, data processing, and technical problem solving, with experience in collaborative technology projects.

Skills

Technical Skills

- **Database:** SQL, MySQL, Query Dasar, Database Management
- **System & Tools:** Linux, XAMPP, phpMyAdmin, GitHub
- **Web Development:** HTML, CSS, PHP, JavaScript, Laravel
- **Internet of Things:** Sensor Integration, Data Realtime

Soft Skills

Analytical Thinking, Problem Solving, Teamwork, Communication, Adaptability, Discipline

Projects

- | | |
|---------|---|
| 02/2025 | IoT Monitoring System for Hydroponic Melon
<i>Web-Based Real-Time Sensor Monitoring System</i> <ul style="list-style-type: none">• Developed a web application using PHP and JavaScript integrated with an SQL database• Deployed and managed the system in a Linux environment for real-time sensor data monitoring |
| 03/2025 | Event Organizer Website – Showcase & Event Management System
<i>Hive Organizer</i> <ul style="list-style-type: none">• Developed an event organizer website with portfolio features and an event management dashboard• Designed and managed an SQL-based database system for event and user data |

Professional Experience

- | | |
|----------------------------------|--|
| 2024 – 2025
Lhokseumawe, Aceh | Web Developer & IT Support
<i>Hive Organizer</i> <ul style="list-style-type: none">• Developed and maintained web applications using PHP, JavaScript, and MySQL• Managed databases and SQL queries, and handled system troubleshooting and technical support |
| 2024
Lhokseumawe, Aceh | Programmer / Instructor
<i>CV. Superteam Academy</i> <ul style="list-style-type: none">• Taught basic web development and database concepts using HTML, CSS, PHP, and SQL• Guided students in using development tools and setting up local development environments |

2025 – Present Aceh	Website Administrator / Database Support <i>PT. LARIS (Listrik Alina Rezaki Sukses)</i> - Managed company website and maintained data updates within web-based systems - Supported database management and data handling using SQL
2025 – Present Bireuen, Aceh	Web Developer <i>Zafa Creative</i>  Developed websites and managed databases using SQL for digital projects

Education

08/2021 – 08/2025 Lhokseumawe, Aceh, Indonesia	Bachelor of Informatics Engineering <i>Universitas Malikussaleh</i> - GPA: 3.60 / 4.00 - Focus on Data Analysis (SQL), IoT, and basic Linux - Thesis: IoT-Based Monitoring and Control of Hydroponic DFT System using a Rule-Based Method
08/2023 – 12/2023 Sumedang, Jawa Barat, Indonesia	Electrical Engineering (Student Exchange Program) <i>Universitas padjadjaran</i> - Participated in Merdeka Student Exchange Program (Batch 3) - Worked on cross-disciplinary projects, including basic Linux and teamwork

Publications

2025	Monitoring and Control of Hydroponic Deep Flow Technique (DFT) System for Melon Plants Using a Rule-Based Method Based on Internet of Things (IoT)  <i>Jurnal Ilmiah Global Education (JIGE) – National Journal</i> Developed an IoT-based rule-based system for real-time monitoring and control of hydroponic DFT systems with web platform and Telegram integration
